PROFESSIONAL SUMMARY

Web developer leveraging four years of Quality Assurance Automation Engineering experience. Recently earned a certificate in Full Stack Web Development from the University of Toronto. Self-starter with proven ability to tackle real life problems that people face while creating world class websites and mobile applications. Recognized for exceptional interpersonal communication skills and effective team leadership.

TECHNICAL SKILLS

HTML | CSS | JavaScript | Bootstrap | React.js | jQuery | Node.js | Express | Apollo | MySQL | GraphQL | NoSQL | MongoDB | Git | Github | API's | Python | Selenium

PROJECTS

Online Health Portal | <https://bit.ly/3FjBYZh> | <https://bit.ly/3peUJHW>

An online portal that connects patients with the doctors. In today's time of Covid-19, it has become imperative to have digital channels for the delivery of healthcare. The patients can use this portal to add, edit or cancel their appointments with the doctor.

Role: Created models, set up the database and created API routes.

Tools Used: HTML, CSS, JavaScript, Sequelize, Handlebars, MySQL

The Enviro Dashboard | <https://bit.ly/32aUMvv> | <https://bit.ly/3GW4LDJ>

An application to help increase awareness around climate which is becoming a pressing issue at a global level. The user can search for any city to see information related to air quality. The user can also play a quiz on topics related to the environment.

Role: Set up a third party API, creating a layout for pollution widget.

Tools Used: HTML, CSS, JavaScript, jQuery, Bulma

Weather Dashboard | <https://bit.ly/3Ef2rGb> | <https://bit.ly/3GQirjA>

Sole developer of this weather dashboard that can be used to look up the weather for a city. For a given city, current weather and a 5-day forecast can be displayed. It also shows previously searched cities for a quick search.

Tools Used: JavaScript, CSS, HTML, Bootstrap

PROFESSIONAL EXPERIENCE
