SUMMARY

As a technology professional with over 4 years of QA experience, have always been interested in learning more about technology. Recently earned a certificate in Full Stack Web Development from the University of Toronto. Learnt skills in JavaScript, NodeJS, Express, MySQL, MongoDB, React.js. Intend to combine these technical skills with my problem solving skills to tackle real life problems that people face while creating world class websites and mobile apps.

TECHNICAL SKILLS

Front End – HTML, CSS, JavaScript, Bootstrap, React.js, jQuery

Back End – Node.js, Express, Apollo, MySQL, GraphQL, NoSQL, MongoDB, Git

PROJECTS

Online Health Portal | <https://github.com/theteam44444/online-therapy> | <https://online-therapy-44444.herokuapp.com/>

This is an online portal that connects patients with the doctors. In today's time of covid-19, it has become imperative to have digital channels for the delivery of healthcare. The patients can use this portal to add, edit or cancel their appointments with the doctor.

Was responsible for creating models, setting up database and creating API routes.

Technologies Used – HTML, CSS, JavaScript, Sequelize, Handlebars, MySQL

The Enviro Dashboard | <https://github.com/theteam33333/enviro-dashboard> | <https://theteam33333.github.io/enviro-dashboard/>

This project was developed to increase awareness around climate which is becoming a pressing issue at a global level. The user can search for any city to see information related to air quality. The user can play a quiz on topics related to the environment.

Was responsible for setting up a third party API, creating layout for pollution widget.

Technologies used – HTML, CSS, JavaScript, jQuery, Bulma

Weather Dashboard | <https://github.com/harry-100/weather-dashboard> | <https://harry-100.github.io/weather-dashboard/>

This is a weather dashboard that can be used to look up the weather for a city. For a given city, current weather and a 5-day forecast can be displayed. It also shows previously searched cities for a quick search.

Worked individually on this project.

Technologies Used – JavaScript, CSS, HTML, Bootstrap

EXPERIENCE

QA Automation Engineer
Owl Practice Inc

2019 – 2021
Toronto, ON

- Developed Automation framework using Python and Selenium
- Formulated Test Automation Strategy to identify use cases for automating regression testing
